

1. Create a Master-Detail Form using DEPT and EMP tables.

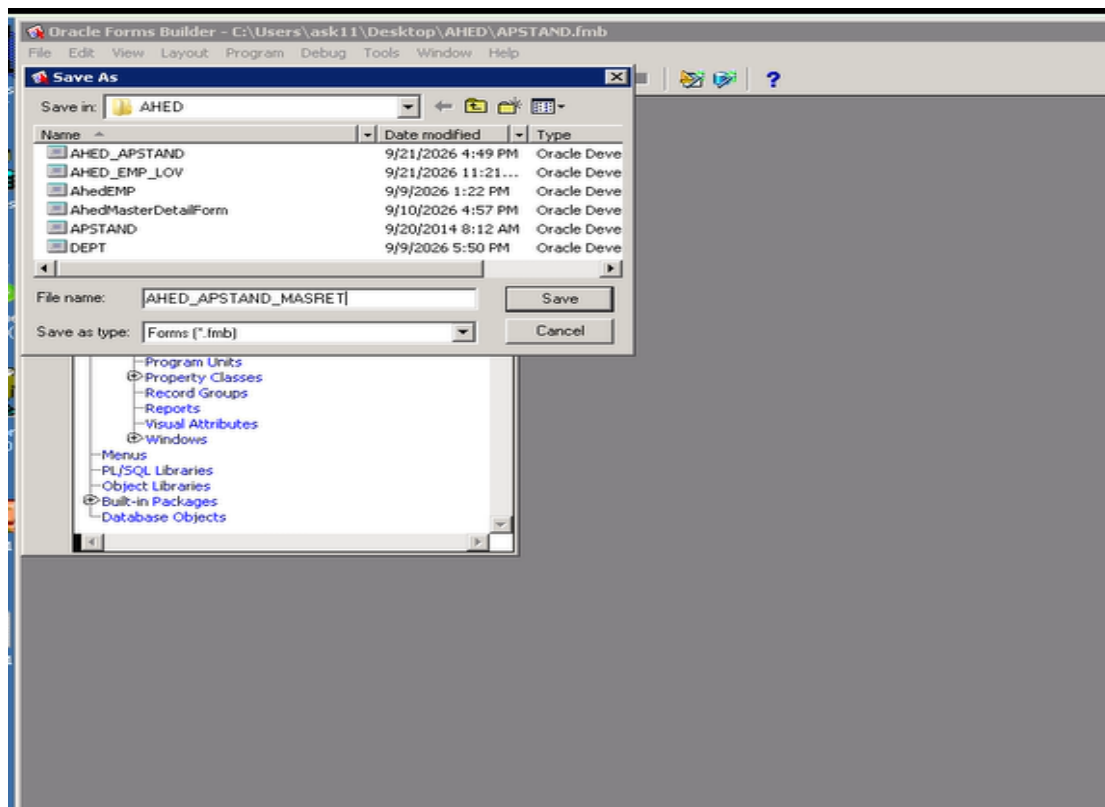

Notice: in master table "dept" chose "form" not tabular because we want one record just to appear

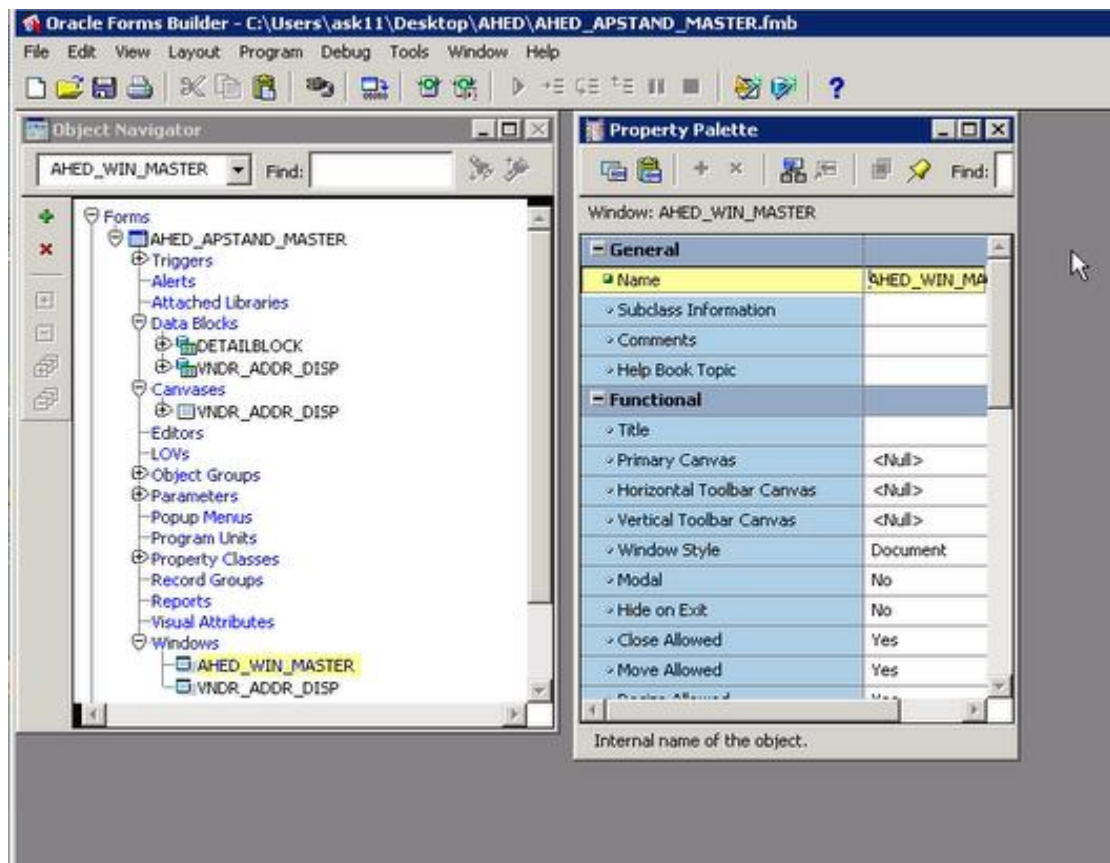

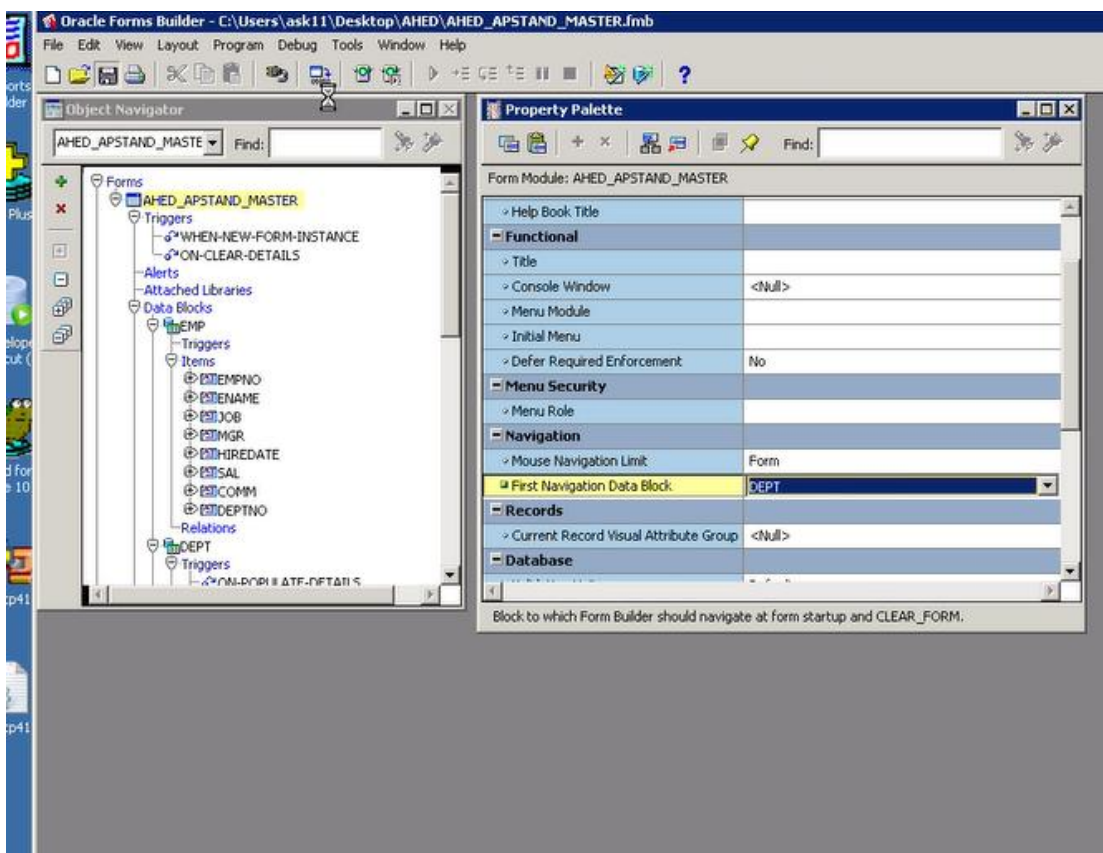

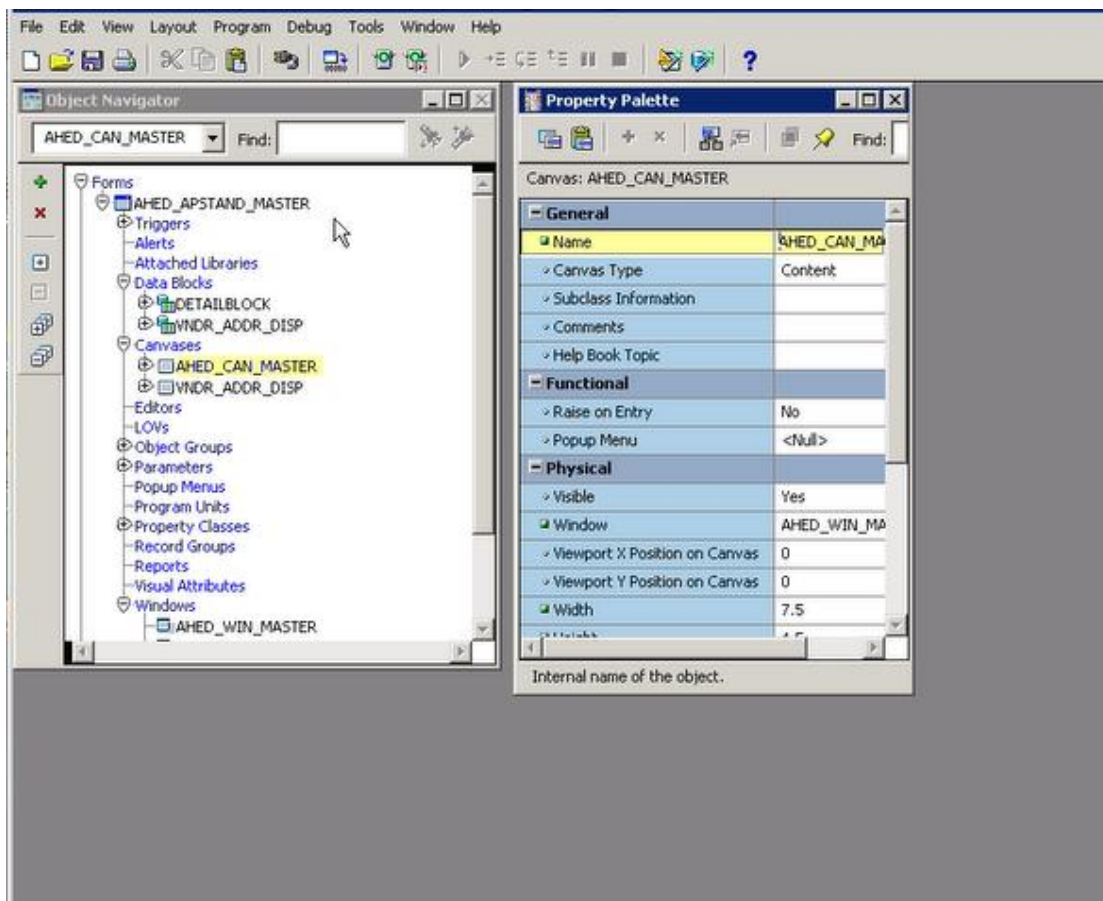

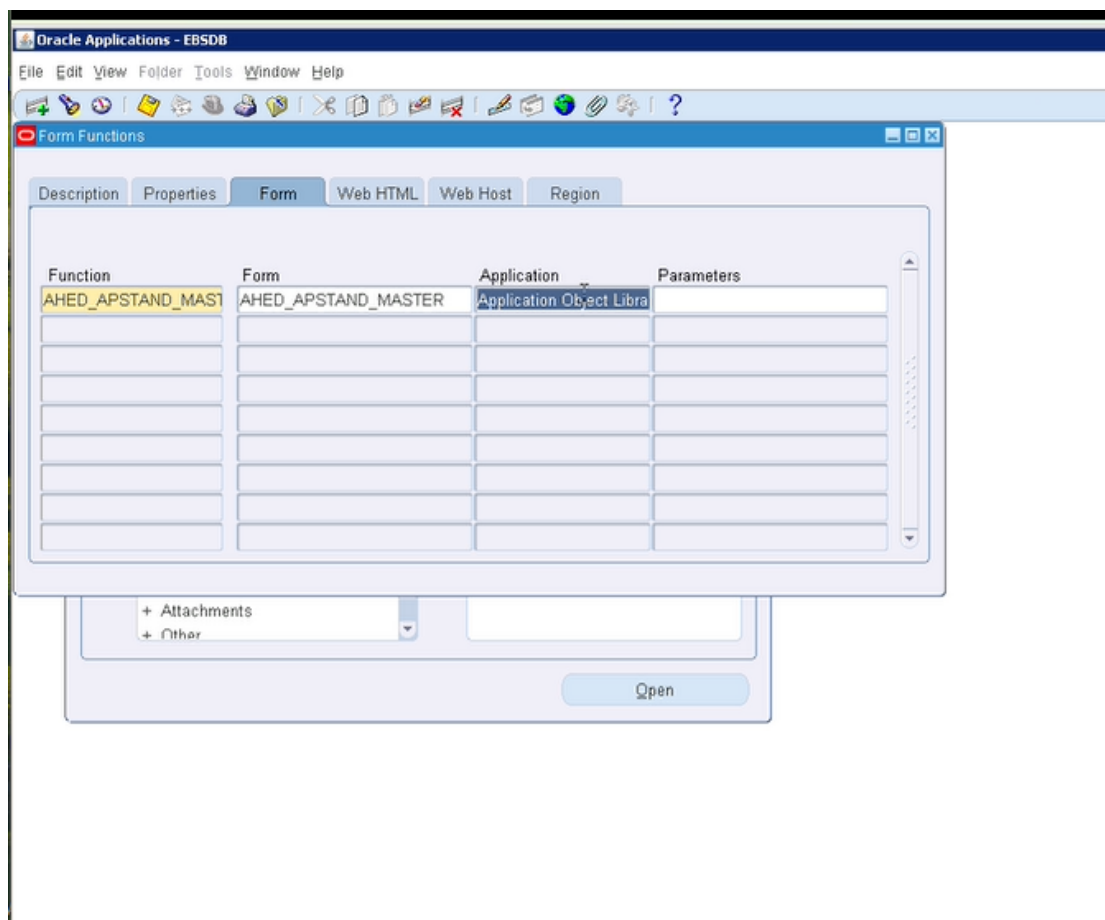

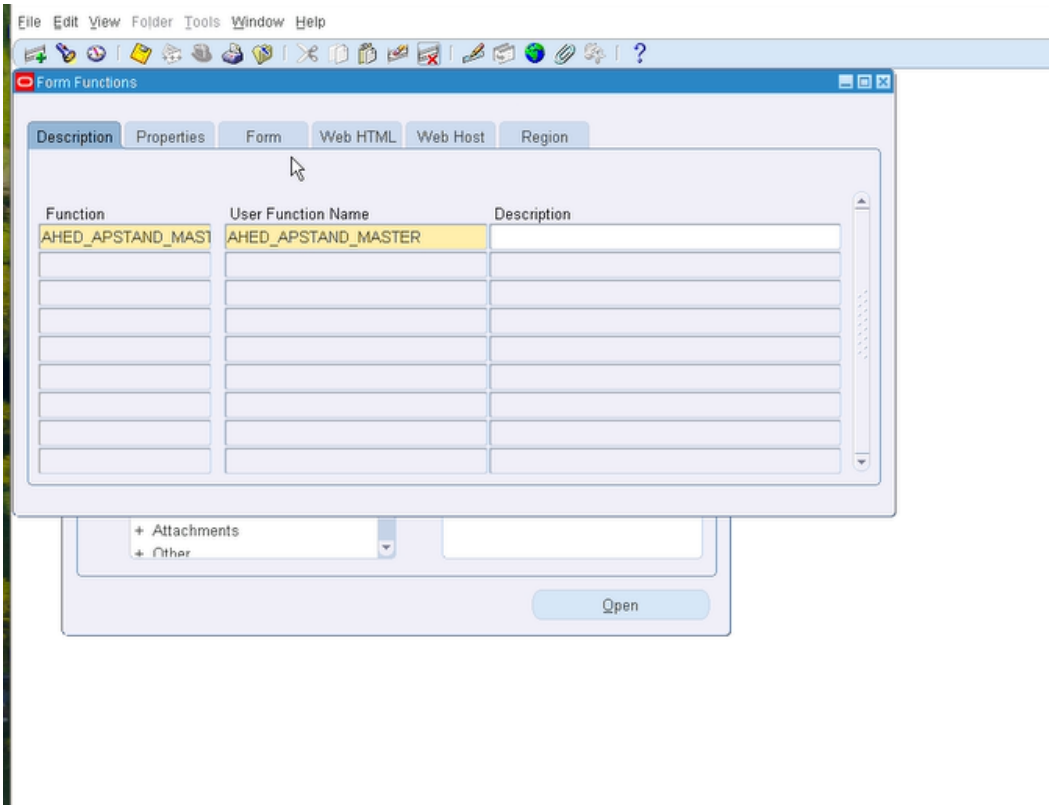

2. Design the Form on APSTAND.fmb template

The screenshot shows the "Menus" configuration window in Oracle Applications. The window has a title bar "Oracle Applications - EBSDB" and a standard menu bar (File, Edit, View, Folder, Tools, Window, Help). Below the menu bar is a toolbar with various icons. The main area contains fields for Menu Name, User Menu Name, Menu Type, and Description. The "Menu" field is set to "AHEDMENU". The "User Menu Name" field is also set to "AHEDMENU". The "Menu Type" field is empty. The "Description" field is empty. To the right of these fields is a "View Tree..." button. Below these fields is a table with columns: Seq, Prompt, Submenu, Function, Description, and Grant. The table contains four rows of data:

Seq	Prompt	Submenu	Function	Description	Grant
1	DEPT_EMP_FOF		AhedMasterDetailForm		☒
2	AHEDEMP		AHEDEMP		☒
3	AHED_EMP_LOV		AHED_EMP_LOV		☒
4	AHED_APSTAND		AHED_APSTAND		☒
					☐

					☐
					☐
					☐
					☐

At the bottom of the window is an "Open" button.

3. Register the Form in Oracle EBS

The screenshot displays the Oracle Applications - EBSDB window. The main title bar reads "Oracle Applications - EBSDB". Below it, a menu bar shows "Window". The application window itself is titled "AHED_WIN_MASTER".

The form contains two primary sections:

- DEPARTMENT DATELS**: This section features a table with three columns: "Deptno", "Dname", and "Loc". There are five rows in total, with the first row highlighted in yellow.
- EMPLOYEE DATELS**: This section features a larger table with eight columns: "Empno", "Ename", "Job", "Mgr", "Hiredate", "Sal", "Comm", and "Deptno". There are five rows in total.

An "Open" button is located at the bottom right of the window.
